Qualifying
C.E.U.'s**

Please bring your California Code Vol. 1

- This seminar consists of two classes, Accessibility California Style and Multifamily Accessibility. Both of which provide necessary information for individuals that wish to become proficient in the field of accessibility or will be taking the CASp examination.
- This two day training is designed to assist architects, designers and code compliance personnel by presenting the differences among the state code, federal guidelines, and state and federal laws. Additionally, the instructor will provide a brief insight into basic test preparation and test taking strategies.
- **CREDITS:** Upon course completion a certificate of continuing education will be provided. The course is approved for AIA learning units and will apply for time toward the new mandatory continuing education courses on accessibility requirements.

Please register by March 18, 2010
