AN “ELECTRIFYING” EXPERIENCE

2007 CALIFORNIA ELECTRICAL CODE PROVISIONS

FOR GROUNDING AND BONDING

Friday, August 21, 2009

8:30 am to 12:30 pm

City of Menifee City Council Chambers

29714 Haun Rd

Menifee, CA

Course Content: This half day course offers an introduction to electrical grounding and bonding. Topics will include introductory electrical theory, circuit and system grounding and bonding methods of equipment grounding, bonding and grounding for 120 volt single phase, 120/208, 120/240 and 277/480 three phase systems.

Who Should Attend: Inspectors, plan checkers and contractors will benefit and gain a better understanding of the importance of grounding and bonding, its proper installation and the differences between the two.

Instructor: The instructor is a certified electrical inspector with over 30 years experience in the electrical industry. He is a member of the International Association of Electrical Inspectors, has written articles for a nationwide electrical trade magazine, and authored a book on passing the California Journeyman Electrical Exam.
